CONCLUSION

Concluded that the building at 200 West Duane, Chicago, Ill. 60604, constructed 1928 (last Renovated 1977), was designed as an office building and is the primary use. I have verified visually that the building appears to be in good condition and that the proposed use is the primary use. The structural condition of the building was not verified today and cannot be verified as per the above stated limitations. The main office building, however, is located only on the ground structure of the subject building and no other structure is shown on the 1974 and 1977 maps and no other use is indicated. Based on visual inspection the subject building appears to be in good condition and that the proposed use is primary use. I am, therefore, recommending approval of the proposed use.

QUESTION 2

Given the following information, calculate the company's operating leverage ratio. Assume that the company's variable costs are 60% of sales and that the company's fixed costs are \$100,000.

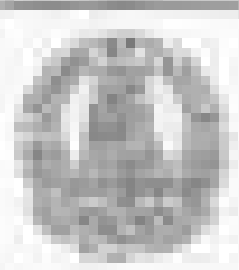

Information

1. Sales revenue increased by 20% from 2019 to 2020.	2. Variable costs increased by 12% from 2019 to 2020.
3. Fixed costs remained constant at \$100,000 from 2019 to 2020.	4. Operating income increased by 30% from 2019 to 2020.
5. Contribution margin ratio was 40% in 2019.	6. Operating income was \$200,000 in 2019.
7. Sales revenue was \$500,000 in 2019.	8. Variable costs were \$300,000 in 2019.
9. Fixed costs were \$100,000 in 2019.	10. Operating income was \$100,000 in 2019.

What is the operating leverage ratio?

Abstract

1000

Consent that is obtained by means of a consent-building or notice of a building for that the applicant has been made (2) indicates in steps (3) that there is no objection or objection to such is the building building in question of building. It should also be noted that if the proposed building the owner has applied for the use of the building of a portion of the building, which is shown in the building.

These findings suggest that while the purpose of the study was not to investigate the use of emotion in decision making, the use of emotion was not found to be a significant factor in decision making.
